

Automatic Labels & Leader Lines

DID YOU KNOW . . . you can control label position and the use of leader lines for automatic (on-the-fly) polygon labels?

What Automatic Labels and Leader Lines Give You

- Quick labeling without using the Spatial Data Editor
- Labels in any process with a View window
- Optional leader lines with label placement outside polygon
- Force labels to be inside polygon

AUTOMATIC LABELS & LEADER LINES

How to Use Automatic Labels

- Select the Polygon tabbed panel of the Vector Layer Controls and set the Label option button to By Attribute or By Script.
- Choose the labeling attribute or enter the script.
- Specify the desired option for label Position.
- Redraw.
- The same label position options are also available when auto-generating polygon label elements in the Spatial Data Editor.
