Add Scalebar to View

DID YOU KNOW . . . you can add a scalebar to the display view?

What Adding a Scalebar to a View Gives You
• Provide a graphic scale for the geospatial object(s) displayed
• Graphic visualization of the scale in English, Metric, or both units
• Choose the location of the scalebar in the view
• Control the scalebar length, label font, and colors

How to Add a Scalebar to a View
• In the View window, click on Options and toggle on the Show Scalebar button.
• Hover the cursor over the scalebar to see the DataTip.
• Right-click on a scalebar to make desired changes to the Scalebar Settings.
